Changmo Sung

FRONT-END DEVELOPER

Profile

I'm a Toronto based Front-End Developer passionate about gaining as much knowledge as possible about Web Development and solving challenging and interesting problems using the best practices on the web.

Featured projects

COVID-19

https://changmosung.github.io/changmoSungCovid19/

This important app is to provide essential information such as what COVID-19 is, how to self-care and wash hands and testing guideline as well as statistics for COVID-19 and live articles about what's happening in the society due to COVID-19 to keep users up to date.

Changmo's Magic Land

https://changmosung.github.io/ChangmoMagicLand/

Changmo's Magic Land is a memory game where users click on each card to match and see the number of attempts and matches with the feeling that they are hanging out with our Disney friends.
